Authorized, trained personnel equipped with suitable respiratory equipment should investigate chlorine leaks promptly. All other persons should be restricted from the affected area. Breathing apparatus or other personal protective equipment are not included in the kits, but must be used when investigating and correcting chlorine leaks and are available

Note: All C-kit components are now packaged in an extra-large polyethylene tool box (36" L x 18-1/2" W x 20" H) to allow room for fully assembled devices and accessory emergency equipment.
