

PORTABLE PRIVACY AT A MOMENT'S NOTICE

When events call for the ability to provide privacy and separation between people, these lightweight privacy screens and cubes set up quickly and are easily transportable. Use anywhere a quick, portable private space is needed.

Applications include increasing medical surge treatment capacity, modesty during decontamination, isolating crime scenes, and creating a screening area during medical emergencies.

PRIVACY SCREEN

(MC4022)

- PVC screen frame size: 70"H x 62.5"W
- Fabric material: recyclable polypropylene non-woven fabric
- One replacement screen included

HEAVY DUTY PRIVACY SCREEN

(MC5032)

- High-density industrial grade PVC frame size: 66"H x 62.5"W
- Screen material: 8 oz. vinyl PVC fabric
- Includes water repelling, urethane coated, nylon bag with barrel lock closure and carry handle

FEATURES & BENEFITS

- Durable, PVC frame is easy to assemble and deploy
- The fluid resistant screen fabric can be easily replaced when dirty
- Lightweight - only 10 lb., with no need for bulky wheels or casters

PRIVACY CUBE

(MC5022E | MCK5022)

- Four PVC frames (70"H x 65"W each) surrounded by fluid resistant fabric
- Includes water repelling, urethane coated, nylon bag with barrel lock closure and carry handle
- Privacy Cube Kit (MCK5022) also includes three sandbags and two stakes for extra stability outdoors or on uneven ground

- Screen surface is antimicrobial, anti-fungal and anti-mildew
- Easy portability with an assembled weight of 12 lb.
- Fast setup with screen pre-installed on poles

- Adaptable screen adjusts beyond a square shape into multiple four-panel configurations
- Easy snap-fit assembly with assembled weight of 20 lb.
- Folds flat for compact storage
- Use alongside the privacy screens for increased versatility

ADDITIONAL ACCESSORIES

PRIVACY SCREEN REPLACEMENT SCREENS (MC4022RS)

- Three replacement screens

PRIVACY CUBE REPLACEMENT SCREEN ASSEMBLY (MC5022RS)

- PVC frame (70"H x 65"W) surrounded by fluid resistant fabric

SANDBAG (HM1075)

- 5 lb. pre-filled sandbag with a hook strap to secure to equipment

BARRIER SCREENS

Reduce exposure to infectious particles in confined areas with Barrier Screens and Shields.

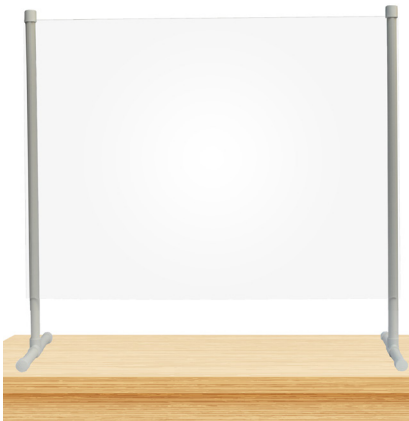

SUGGESTED USES

- ✓ Divide a shared office
- ✓ Separate people in waiting lines
- ✓ Use as a transparent divider in manufacturing environments
- ✓ Maintain lines of sight for safety or security in airports, stations, and other gathering areas
- ✓ Use as a clear plastic sneeze guard on worksites where medical screening, triage, vaccination, or other healthcare activities occur
- ✓ Reduce infection exposure without obscuring patients from view

FLOOR STANDING BARRIER SCREENS

Clear - MC5052C | Semi-Transparent - MC5052ST

- Easy to clean and disinfect - all materials withstand most glass cleaners and disinfectants
- Dimensions: PVC frame - 62.5"W x 69.5"H (75.5"H with taller legs) x 26"D; Shielded area - 61.5"W x 55"H
- Material: Clear (MC5052C) - PVC frame with solid clear vinyl panel; Semi-Transparent (MC5052ST) - PVC frame with solid clear vinyl panel containing internal layer of woven mesh
- Screen surface is anti-static, UV inhibiting, and CSFM compliant
- At 10 lb., the screen is large but easy to handle when moving
- Easy to assemble – no tools required
- Removable feet for compact storage
- Two sets of legs provided for two height options
- Made in the USA

SUGGESTED USES

- ✓ Workplace desk shield
- ✓ Sneeze guard for a reception desk
- ✓ Retail counter sneeze guard
- ✓ Conference room table barrier
- ✓ Clear plastic sneeze guard on worksites where medical screening, triage, or healthcare activities occur
- ✓ Tabletop barrier at public health clinical settings to safely limit contact with patients at triage

COUNTERTOP BARRIER SHIELD

MC5042

- Easy to clean and disinfect – all materials will withstand most glass cleaners and disinfectants
- Dimensions: Shielded area: 40"W x 30"H; Overall: 40"W x 37"H x 14"D
- 6" gap at bottom of shield
- Material: PVC frame with clear acrylic sheet for screen
- These partitions assemble quickly and are built tough to stay in place in commercial settings
- At 12 lb., the screen is substantial but easy to handle when moving
- Easy to assemble – no tools required
- Removable feet for compact storage
- Made in the USA
